PROFESSIONAL SUMMARY

Computer Science undergraduate skilled in Flutter, Python, and serverless AWS architectures, with hands-on experience building full-stack, AI-integrated applications across healthcare, education, and cloud platforms. Strong foundation in Data Structures, System Design, and REST API development.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, SQL
Frameworks & Libraries: Flutter, React, Node.js, TensorFlow Lite
Cloud & Backend: AWS (Lambda, API Gateway), Google Firebase, MongoDB
Databases: MongoDB, Amazon DynamoDB, Firebase Firestore, SQL
Tools & Platforms: Git, GitHub, VS Code, Microsoft Power BI, Tableau
Core Concepts: Data Structures and Algorithms, System Design, REST API Design, Serverless Architecture, Agile Methodology, Software Development Life Cycle (SDLC), Problem Solving, Machine Learning

EDUCATION

Krishna Institute of Engineering and Technology (KIET) <i>Bachelor of Technology in Computer Science</i> John Milton Public School <i>Class XII – CBSE</i>	Ghaziabad, Uttar Pradesh Aug 2024 - Present Agra, Uttar Pradesh Passed - 2024
---	--

PROJECTS

MedVerse – AI Healthcare Platform Flutter, Firebase, Flask, MongoDB, AI – Architected a cross-platform healthcare app in Flutter supporting 4 distinct user roles (Patient, Doctor, Lab, Admin), each with role-based access controls governing data visibility and permissions. – Integrated an NLP-based medical chatbot and automated prescription/report analyzer using on-device AI for faster diagnostics support. – Implemented Firebase Auth, Firestore, and Flask REST APIs with a MongoDB GridFS backend for secure medical document storage.	Jun 2026
Smart Attendance Flutter, TensorFlow Lite, Firebase, Google ML Kit – Developed a real-time attendance app in Flutter using on-device facial recognition (TensorFlow Lite FaceNet, Google ML Kit), achieving sub-second identity verification. – Synced student records and attendance logs to Firebase Firestore, enabling real-time retrieval across devices with no manual reconciliation.	Apr 2026
Edunex – Serverless Learning Platform AWS Lambda, API Gateway, DynamoDB, S3 – Engineered a fully serverless notes and past-year-questions (PYQ) platform on AWS Lambda and API Gateway, removing the need for any dedicated server provisioning or maintenance. – Used DynamoDB for structured data and S3 for file storage; built an admin dashboard for content tracking and user analytics.	Mar 2026 – Apr 2026

EXPERIENCE

Student Placement Coordinator , CRPC – KIET – Coordinated placement logistics for 70+ students across 5+ recruitment drives, serving as the primary liaison between recruiters and candidates to schedule interviews and resolve last-minute conflicts.	May 2026 – Present
---	--------------------

CERTIFICATIONS & ACHIEVEMENTS

• Infosys springboard Mobile App Development using Flutter	Jun 2026
• AWS Certified Cloud Practitioner	Feb 2026
• AWS Certified AI Practitioner	May 2026
• MEPro Level 7 – English Proficiency	Dec 2024
• Solved 80+ DSA problems on LeetCode, focused on medium/hard topics (arrays, graphs, dynamic programming).
